ABOUT ME

Ambitious computer systems engineer graduate with a positive, proactive approach who excels at finding creative and efficient solutions. Driven to learn and possessing a strong work ethic, with a desire to go above and beyond expectations.

EXPERIENCE

Software Developer

Alan Blunden

Jun 2022 - Present

Fully Remote - Southend-On-Sea, UK

- Developed and maintained existing, full-stack line of business applications for a variety of insurance brokers.
- Worked remotely as part of an agile team, collaborating and communicating with other teams in different disciplines.
- Used Azure Cloud technology to provide continuous integration and delivery.
- Personally created a number of developer focused applications to make updating of insurance rules and rates easier.
- Maintained test suites for both front-end web and API applications.

PHP

C#

Javascript

Vue

Python

SQL

Node.js

JavaScript
